PInT Sumer Fellowship Application Questions

An Olin Public Interest Technology Opportunity

This PDF version of the application is provided for your convenience, so you can write and edit your answers. When you are finished, please submit your application through the [PInT Fellowship Application Form](http://bit.ly/pintfellowshipapp) (at http://bit.ly/pintfellowshipapp).

The PInT Summer Fellowship is a fully-funded program that will place up to three Olin College engineering students at public interest organizations to advance Olin's mission to recognize needs, design solutions, and engage in creative enterprises for the good of the world. PInT is a student-led effort to cultivate pathways and opportunities for Olin's students, faculty, and staff to be creators, engineers, designers, artists, and activists who leverage and deepen their powerful technical and creative skills for justice, equity, inclusion, and doing good in the world.

For information about the Fellowship, please visit the [Fellowship Information Site](http://pint.olin.edu/fellowship) (http://pint.olin.edu/fellowship).

You should fill out this application once you have identified several organizations you could be placed at. The application will ask for details about those organizations and how you would see yourself acting at each.

PLACEMENT INFORMATION

We encourage you to contact the organizations you are interested in, and can give you advice about how to do so, but you can submit an application before receiving a firm confirmation from one of these groups. You can express interest in working with any organization that focuses primarily on advancing the public interest, including government offices, public institutions, non-profits, community-based organizations, advocacy campaigns, foundations, environmental organizations, and more. You can propose working in a technical role, but you do not need to limit yourself to any particular approach to public interest.

This question is a crucial part of your application because it helps us understand the types of work you see yourself taking part in. If accepted, we will support you in finding and narrowing down organizational partners as needed. Please note that placement at an organization requires that it meets

APPLICATION QUESTIONS

Please address the questions below to help us evaluate your application.

Think back to when you wrote your Olin essay on change. Reflect on how your response today would compare to your response when you applied. *REQUIRED

Please limit your response to 300 words. The most recent iteration of the Olin application question reads: "Olin is a community striving to improve the world and improve people's lives through engineering education. What change do you hope to be a part of? Why is this particular change important to you? How do you want to improve the world?" If you do not remember what you wrote in response to this, think about how your pre-Olin self would have thought about this, and compare it to how your current self feels.

What impact do you want to have through this fellowship? *REQUIRED

Please limit your response to 150 words.

What impact do you hope this fellowship will have on you? *REQUIRED
